

Decision 05-10-006 October 6, 2005

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Vertex Telecom, Inc. for a
Certificate of Public Convenience and Necessity
to Provide Resold Competitive Local Exchange
Services in the State of California.

Application 05-05-018
(Filed May 19, 2005)

**OPINION GRANTING CERTIFICATE OF
PUBLIC CONVENIENCE AND NECESSITY**

I. Summary

Vertex Telecom, Inc. (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide resold local exchange telecommunications services. By this decision, we grant the requested authority subject to the terms and conditions set forth below.

II. Background

In prior decisions, we authorized the provision of competitive interexchange services by carriers meeting specified criteria. In addition, we authorized the provision of competitive local exchange service, by carriers meeting specified criteria, within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc. (Verizon), SureWest Telephone

(SureWest), and Citizens Telecommunications Company of California, Inc. (CTC).¹

Applicant, a California corporation, seeks authority to provide resold local exchange services as a competitive local carrier (CLC) in the service territories of Pacific and Verizon.

Applicant's principal place of business is located at 615 South Grand Avenue, Los Angeles, CA 90017.

A. Financial Qualifications

To be granted a CPCN, an applicant for authority to provide resold local exchange services must demonstrate that it has a minimum of \$25,000 of cash or cash equivalent to meet the firm's start-up expenses.² An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs) in order to provide the proposed service.³ Applicant has provided a certificate of deposit from its bank that demonstrates that Applicant has sufficient cash to satisfy the financial requirements and to pay any required deposits.

B. Technical Qualifications

¹ SureWest was formerly known as Roseville Telephone Company.

² The financial requirement for CLCs is contained in Decision (D.) 95-12-056, Appendix C. The financial requirement for NDIECs is contained in D.91-10-041.

³ The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C. For nondominant interexchange carriers, the requirement is found in D.93-05-010.

Applicants for CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. Applicant submitted biographical information on its officers that demonstrates that it possesses sufficient experience and knowledge to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

III. Tariffs

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment A to this decision. Applicant shall correct these deficiencies in its tariff compliance filing as a condition of our approval of its tariffs.

IV. California Environmental Quality Act (CEQA)

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant will not be constructing any facilities. Therefore, it can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant must file for additional authority, and submit to any required CEQA review, before it can construct facilities.

V. Conclusion

We conclude that the application conforms to our rules for authority to provide competitive local exchange telecommunications services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein.

VI. Categorization and Need for Hearings

In Resolution ALJ 176-3153, dated May 26, 2005, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

VII. Comments on Draft Decision

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

VIII. Assignment of Proceeding

John Bohn is the Assigned Commissioner and Myra J. Prestidge is the assigned Administrative Law Judge in this proceeding.
